### OBJECTIVE

Software Engineer skilled in **Python/JavaScript (React.js/Next.js)** and **Business Intelligence**, focused on building scalable solutions that strategically employ **AI prompts in the SDLC** to accelerate development, improve code quality, and merge technical precision with business insight.

### HARD SKILLS

- **Languages:** Python, JavaScript(ES6+), HTML5, CSS3, TailwindCSS, SQL, DAX
- **Frameworks / Libraries / Runtimes:** React.js, Next.js, Node.js, Bootstrap, Angular
- **Databases:** MySQL, Postgres, Business Objects Enterprise, Docker
- **Tools & Platforms:** Power BI, Tableau, Git, Excel, Figma, Webpack 5, Jasmine, VSCode

### PROJECTS

<b>Personal Portfolio Website</b> 	03/2025 – 04/2025
• <b>Tech Stack:</b> React, TailwindCSS, HTML, Vite, Email.js	
<b>Pokemon Decision Tree</b> 	05/2025 – 05/2025
• <b>Tech Stack:</b> Python, Scikit-learn, Jupyter Notebook	
<b>SmartBrain API</b> 	08/2021 – 10/2021
• <b>Tech Stack:</b> JavaScript, Node.js	
<b>Oddball Application</b> 	09/2021 – 11/2021
• <b>Tech Stack:</b> Java, JFrame, Netbeans	

### EXPERIENCE

<b>Business Intelligence Manager, Southern Glazer's Wine &amp; Spirits</b>	06/2023 – 07/2025
• <b>Led</b> the technical evaluation and integration of new analytical tools, managing the project lifecycle to improve data processing performance by 25%.	
• <b>Developed</b> technical documentation and training programs to explain complex data concepts, successfully onboarding over 8 team members to new software.	
• <b>Engineered</b> interactive data visualizations with Tableau/Power BI, translating client requirements into functional dashboards that provided actionable insights.	
<b>Business Intelligence Analyst, Southern Glazer's Wine &amp; Spirits</b>	01/2021 – 05/2023
• <b>Identified and resolved</b> bottlenecks within the data reporting pipeline, optimizing the workflow to reduce project delivery times by 30%.	
• <b>Managed</b> the full implementation of new data analysis software, from initial needs assessment to final rollout and user training.	
• <b>Partnered</b> with cross-functional teams in an Agile-like environment to define project requirements and deliver data-driven software solutions.	

### EDUCATION

<b>Associates of Science in Information Technology, South Louisiana Community College</b>	01/2015 – 12/2016
<b>Bachelor of Science in Management Information Systems, University of Louisiana at Lafayette</b>	08/2003 – 05/2006
